Fifteen years of council-backed income, on one lease.

Fifteen freehold buildings along sixty miles of the Sussex coast, let for fifteen years to the operator that houses the people local councils have a legal duty to accommodate. Held in one company; sold as one asset.

15 freeholds, 182 homes

Eight towns from Bognor Regis to Hastings. Adapted, accessible and shared housing plus six commercial units.

One 15-year lease

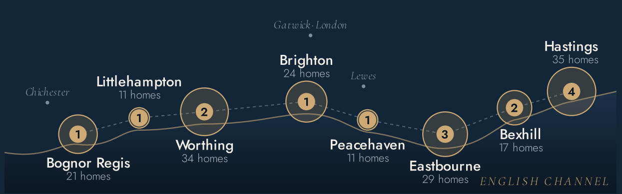
Full repairing and insuring, five-yearly upward-only reviews, no break. Single corporate tenant: Castle Accommodation Ltd.

5 councils, 90%+ occupied

Block-booking and long-term agreements with Sussex local authorities. Occupancy above ninety per cent since inception.

THE ASSET

Fifteen freehold buildings in eight towns along the Sussex coast: 182 residential units — self-contained family flats, shared HMO rooms and disability-adapted, accessible homes including bungalows — plus six commercial units. Fully furnished, HMO-licensed and compliant, maintained around the clock by the operator. Every title sits in one company, Vitae Investments Ltd.



Schematic, not to scale · dot size = homes per town · number = freeholds

THE LEASE

The whole portfolio is let to the operating company, Castle Accommodation Ltd, on a single fifteen-year lease: full repairing and insuring, upward-only reviews every five years, no break. A buyer acquires long corporate lease income from one tenant, not a book of tenancies — and the rent is covered even on a bare open-market basis should the operator ever step away.

WHAT STANDS BEHIND THE TENANT

Castle Accommodation provides supported temporary accommodation commissioned by Sussex local authorities — Brighton & Hove, Adur & Worthing, Lewes & Eastbourne and Rother, with Hastings in progress — under block-booking and long-term agreements rather than spot purchases. English councils have a statutory duty to house homeless households: Brighton & Hove alone has more than two thousand households in temporary accommodation, and Eastbourne spends around half of every pound of council tax on it. Demand is structural, not cyclical.

THE TRANSACTION

A twenty-million-pound-plus asset offered as a share sale of Vitae Investments Ltd, with non-core elements carved out beforehand. UK stamp duty on shares is half a per cent, against the surcharged property tax a non-resident pays on direct acquisitions. Existing bank debt is in place and can be assumed or refinanced; conventional and Sharia-compliant refinancing routes are both open. Rent, guide price and yield are provided only in the information pack, under NDA, by our transaction adviser.

WHY WE ARE SELLING

To free up capital for the nationwide expansion of adapted, accessible housing in the UK. The operating company is being acquired by its management team; the founders remain in it day to day, on strategy. Vitae no longer needs to own the bricks.

GROWTH ALREADY FUNDED

Landlord-funded development of a further twenty-plus units is in progress inside the portfolio, priced by overage — the buyer pays for what is delivered, when it is delivered, and the lease rent steps up accordingly.

PROCESS

1. Sign the NDA.
2. Receive the information pack and guide from Innovation Capital, our transaction adviser.
3. Management meeting and site visit in Sussex. Off-market access for a small number of selected investors ahead of wider marketing.

IN ONE SENTENCE

Long corporate lease income from a single tenant, with the statutory housing duty of English councils behind it — sold as shares, financeable on conventional or Islamic terms, with the founders staying in the operating business.
